Table 3	Page 4	Q2. When it comes time to make important decisions about end-of-life care options for patients, who should be the primary decision maker, including how you die - the government - or patients, in consultations with doctors and loved ones?
Table 4	Page 5	Q3. As you may not know, medical aid-in-dying laws give mentally capable, terminally ill, adult patients the freedom to end unbearable suffering and untreatable pain by requesting prescription medication they can decide to take to die gently in their sleep. Do you think a mentally capable adult patient with an incurable, terminal illness, who only has six months of less to live, should have the legal option of medical aid in dying to pass
Table 5	Page 6	Q4. If you had an incurable, terminal illness, still had a capable mind, had less than six months to live, and you met the legal requirements, would you personally want the legal option of medical aid in dying available to you, even through you might not choose to use it?
Table 6	Page 7	Q5. Montana is one of the 10 states that currently gives terminally ill patients the legal option of medical aid in dying. Do you support continuing to give these patients this legal option?
Table 7	Page 8	Q6. Do you agree or disagree with the following statement: "Mentally capable, terminally ill patients with incurable diseases who have six month or less to live should have the personal freedom and the legal right to dictate the terms of dying, by using medical aid in dying." (Test Intensity...)
Table 8	Page 10	Q7. Do you support or oppose legislation that would subject a licensed physician to criminal prosecution for homicide if they honor a terminally ill patients request to write a prescription for medical aid in dying? Homicide is a felony crime that in Montana carries a minimum sentence of 10 years in prison and a maximum sentence of the death penalty.
Table 9	Page 11	Q8. Do you consider yourself to be pro-life or pro-choice on the subject of abortion? (Test Intensity...)
